Shading Solution

Mid value with a yellow base

Perfect for clients who want an ash-based eyebrow

Mid to dark value with a yellow base

Perfect for clients who are greying, with 'salt & pepper' hair

Light value with a yellow base

Perfect for clients who want a supernatural look

Mid value with orange base

Perfect for clients who want a soft look that is neither too light nor too dark

Dark value with orange base

Perfect for clients who want a more defined look

Dark value with orange base

Perfect for clients who want a bolder, stronger look

Dark value with yellow base

Perfect for clients who need as much depth as possible

Clear Solution

Used to dilute principal color.

Shading Solution

# I ♥ ink

## Eyebrow Collection

Ultra-concentrated, high-quality pigments like no other.

### EASY TO USE

7 light-to-dark shades to suit all of your clients

### NO MODIFYING REQUIRED

All colors are pre-modified

### MIX ANY WAY YOU WANT

Darken colors by adding a drop of BOLD BROWN or EBONY

### GREAT FOR MACHINE WORK AND MICROBLADING

Shake well to achieve the perfect texture

### COVERS OLD PMU

Colors are ultra-concentrated enabling you to place the target color directly on top of the old, undesired color

### LONG-LASTING COLOR RETENTION

What you see is what you get. Expect 90% retention after the first treatment

### PREDICTABLE RESULTS

Stable color performance for years

## Pigments

By artists, for artists.
